

TECH VAYUNA CLUB  
TASK 2: BUG REPORT-Netflix Clone  
CSS/Frontend

---

1) **ISSUE:**

Navbar not sticky

The header disappears when scrolling.

**DESCRIPTION OF ISSUE:**

.header is not fixed.

**FIX:**

```
position: sticky;  
top: 0;  
z-index: 1000;
```

2) **ISSUE:**

Navbar links have no hover effect.

Links look static and not interactive.

**DESCRIPTION OF ISSUE:**

No :hover style defined.

**FIX:**

```
.header nav ul li a:hover {  
  
color: #e50914;
```

```
}
```

### 3) ISSUE:

Sign-in button lacks hover effect

The .sign-in-btn is static, no feedback on hover.

#### DESCRIPTION OF ISSUE:

Missing :hover CSS rule for .sign-in-btn.

#### FIX:

```
.sign-in-btn:hover {  
    background-color: #f40612;  
}
```

### 4) ISSUE:

Hero heading not responsive

font-size: 3rem; is too large for small screens.

#### DESCRIPTION OF ISSUE:

The hero heading uses a fixed large font size, making it appear oversized and hard to read on screens.

### FIX:

```
@media(max-width:768px){  
    .hero h1{  
        font-size:2rem;  
    }  
}
```

### 5) ISSUE:

No hover animation for movie posters.

Movie posters feel static.

### DESCRIPTION OF ISSUE:

The .movie-grid img selector lacks a :hover rule to define transition effects.

### FIX:

```
.movie-grid img:hover {  
    transform: scale(1.05);  
    transition: transform 0.3s;  
}
```

HTML/Frontend

---

1) **ISSUE:**

Generic alt text for images.

**DESCRIPTION OF ISSUE:**

All movie poster <img> tags have alt text like "Movie 1", "Movie 2", which doesn't describe the actual content.

**FIX:**

```

```

```

```

```

```

## 2)Issue:

Buttons have no functionality.

### DESCRIPTION OF ISSUE:

The "Sign In" and "Watch Now" buttons are just <button> elements with no onclick action or links. Clicking them does nothing.

### FIX:

```
<a href="signin.html" class="sign-in-btn">Sign In</a>  
  
<button class="cta-btn"  
onclick="window.location.href='signup.html'">Watch  
Now</button>
```
